By Associated Press.

WESEL, March 25.—(P. M.)—Fifteen shells fell in the civilian part of Wesel today, considerably damaging a number of dwellings in the business quarter and resulting in the killing of a nurse and two children. Wesel is virtually shut off from news of the outside world.

There was a flurry this afternoon, causing crowds to collect, when a squad of soldiers passed through one of the streets escorting three men believed to be spies who had been taken prisoners. The men were compelled to walk with their arms above their heads.

PARIS, March 25.—Havas.—The German cabinet headed by Premier Gustave Bauer has resigned, according to a message received here from Berlin today.

BERLIN, March 25.—Wesel, the besieged fortress northwest of the Ruhr coal basin, was still holding out today against the revolutionary workmen, according to the Freiheit. The situation is gradually clearing, the newspaper says.

COAL WALKOUT SURE

No Way to Prevent Suspension in
Illinois, Leader Says.

By Associated Press.

PHOENIA, Ill., March 25.—There will undoubtedly be a suspension of work in the coal mines of Illinois, April 1, Frank Harrington, president of the United Mine Workers of Illinois, said here today. "Understand it will not be a strike," he said, "but an unavoidable suspension of work. It may be for a short time or a long time."

"Our agreement expires at midnight, March 31," said Harrington. "I believe it will be impossible to keep the men at work after that."

"It is possible, of course, that some sort of an agreement will be reached in New York, Monday."

They Threw Lessons.

By Associated Press.

NEW YORK, March 25.—A new effect of "spring fever" was described today by detectives, following a non-medical but thorough examination of Malcolm Rae, 11 years old, and Samuel Koshkita, 10, pupils of public school No. 23.

According to the detectives the lads confessed they set fire to the school building because it was spring and they did not want to go to school. The fire was extinguished with slight loss, however, and unless children's court decides otherwise, the two probably will be yawning at their old seats again soon.

**BASEBALL CLUB
ORGANIZED WITH
STRONG BACKING**

Representative Citizens Chosen
for Important
Officers.

DR. UTTS IS PRESIDENT

"Alex" Hood, Treasurer; "Bob" McDowell, Business Manager; "Chip" Francis, Playing Manager; Schedule of Games to Be Arranged at Once.

The Connellsville baseball club was placed upon a substantial footing last evening when a group of citizens interested in the sport met at the Baltimore & Ohio railroad Y. M. C. A. and completed the organization. The officers chosen to serve in the ensuing year are:

President, Dr. C. W. Utts; treasurer, A. B. Hood; business manager, Robert McDowell; playing manager, L. "Chip" Francis; secretary, Duke Barco. The president, treasurer and secretary, together with A. Bufano, J. J. Thompson, Dr. T. B. Richard, C. M. Stone and S. E. Buttermore, will comprise the board of directors.

With this organization behind it the "Connellsville Independents," as the club will be known, is assured of the support of the citizens of the community and is certain to fill an important place in the local sports activities. The men selected for the several positions are in every way qualified for the duties assigned them, and deserving of the confidence of the public. Dr. Utts, president, has long been an incurable fan and is well posted on all matters pertaining to the sport. "Alex" Hood, in addition to his splendid qualifications as treasurer, is an ardent admirer of the game. "Bob" McDowell has been a close student of baseball and is just the kind of a man to fill the somewhat thankless job of handling the business management of the club. The position of playing manager, assigned to "Chip" Francis, is one he should fill with credit as he is reputed to know the inside of baseball as few in this section know it.

The board of directors is composed of men who have been close followers of the game for years and who will spare no effort to make the new club the kind of an outfit that will give Connellsville a season of real baseball.

Business Manager McDowell will immediately proceed to arrange a playing schedule and complete other arrangements that will enable local fans to witness a series of first-class games.

**EXPORTER PLACES ORDER
FOR \$3,000,000 WORTH OF
PARAGON AUTOMOBILES**

Among the many inquiries received at the office of the Paragon Motor Car company this week was an order calling for over \$3,000,000 worth of Paragon cars for export to the United Kingdom and its possessions. Shipments were requested at once, with a bonus offered when a shipping schedule of 100 cars a month is reached. The total number of cars desired by the purchaser, who is a prominent New York exporter, is 1,000.

This further evidences the strong demand for high grade, four cylinder cars and shows how the Paragon is already creating a name for itself, not only throughout this country but abroad as well. The fact that many

**ANOTHER RECRUIT
IS REPORTED IN
COMPANY D DRIVE**

Recruit Is Dwight C. Henry; Returns on Unofficial Canvass for Company D Fund, Incomplete.

By adding another recruit, yesterday's progress was maintained in the drive for members for Company D of the newly reorganized Tenth regiment. The recruit is Dwight C. Henry, 18 years old, of Snyder street. He has had no previous military training. There is a promise of quite a few young men from the Snyder street district. A number were at the army night to secure enlistment cards and it is likely that some of these will sign up in a few days.

By the first of the week it is expected that the distribution of enlistment cards by Boy Scouts and the sponsor organization are expected. Membership in the company is becoming more attractive each day. There is the promise of association with other fine young men of the city, a gathering place made pleasant with various amusements, a summer vacation beneficial to both youth and the nation.

Although only one report, a return of \$75, has been made by a canvassing team, it is known other funds reaching a larger total are still outstanding. The total now in the hands of Treasurer Alex Hood is \$1,111. The goal of the men securing the company fund is \$3,000. Reports will probably be in by tomorrow as the drive will hardly be carried into next week.

When first planned it was the intention of the fund committee to do the work in two days but some commitments did not cover the territory assigned to them and as a result the drive has been somewhat longer drawn out, teams in the field completing what had been left undone by the others.

**HAROLD NEVILLE,
DAWSON, ARRESTED
FOR EVADING DRAFT**

Government Agent Charges Well-known Young Man With Seeking Safety in Canada During War.

PITTSBURGH, March 25.—Charged with evading selective service, Harold W. Neville, 29 years old, of Dawson, Fayette county, yesterday was arrested by Deputy United States Marshal Ira C. McCloskey, and in default of \$2,000 bail was committed to jail for a hearing before the United States commissioner.

The complaint was filed by R. B. Spencer, special agent of the Department of Justice in charge of the Pittsburgh district.

According to the government officer, Neville left the United States for Canada a few days before the declaration of war with Germany, and returned home December 22, 1918. While in Canada, it is alleged, he worked for a trapper in an isolated section and later went to Sudbury, where he secured a government position.

WHISKY CAR STRANDED

Hundred Barrels, Reported at Everson
But Officials Say No.

A report current here this morning was that a car of 100 barrels of whisky, with the bill of lading mislaid or lost, or entirely without such a bill, was in the Everson yards of the Baltimore & Ohio. The tale of a car of the wet goods so close to the city renewed a terrible thirst for many who have been trying to dampen parched throats with fire water.

Inquiry at the freight office could throw no light on the report, nothing having been heard here regarding the car. It was said, however, that whether the car was loaded with whisky or some other goods, the bill of lading might have been mislaid for the time being.

First reports are understood to have come from a railroad agent and it did not take the news long to spread through the downtown section of the city.

SAM COUGHENOUR HURT

Connellsville Carpenter Run Down by
Automobile Near Cumberland.

Samuel Coughenour, 43 years old, of this city, was struck by an automobile Wednesday afternoon at Cumberland (as he was returning home from work as a day laborer) when he had been employed on house construction by a building company.

Several other carpenters were also hurt, but not seriously. The driver of the car, who failed to stop and whose identity is unknown, tried to avoid hitting another car when he ran into the group of workmen.

AFTER VIOLATORS

Health Officer Will Stop Premicious
Garbage Dumping.

Health Officer George Hetzel has issued a warning against throwing refuse and garbage into vacant lots and back alleys. Persons doing this might as well leave the stuff on their own premises, he said, as it does not do away with the disease menace. The health officer is on the trail of persons who have been throwing refuse in the east and north districts of the city. He also opposes boys hauling refuse from private premises on wagons as they invariably dump it somewhere in the city limits and in violation of the law, he says.

**WEST PENN MEN
GIVEN ADVANCE
OF 10 PER CENT**

Hour Scale of Car Crews Beg-
ginning April 1 Will be
55 to 60 Cents.

SIX HUNDRED AFFECTED

Of This Number 300 Are Employed On
Cars and Trucks and in Shops of
Coke Region Division of Trolley
System; Scale Double That of 1915.

A wage increase of approximately 10 per cent has been granted by the West Penn Railways company to all trolleyman, shopmen and trackmen, effective April 1. About 600 men are affected, 400 on the coke region division and 200 on the Allegheny Valley, McDonald, Kittanning, Leechburg and McKeesport divisions.

The advance makes the rate for trolleyman 55, 58 and 60 cents an hour, the top figure being paid to employees after one year's continuous service. The present rate is 50, 53 and 55 cents an hour.

This is the second increase for trolleyman within a year, the last general wage boost having been given on May 1, 1919. The scale is 25 per cent higher than it was on that date and 100 per cent greater than that in effect November 1, 1915. Then it took eight years for an employee to go from the minimum to the maximum rate of pay. Now he receives the maximum after a year in the company's employ.

Officials state that the increase will add close to \$105,000 a year to the cost of operation.

TEMPORARY BONDS

Can Now Be Exchanged for Perma-
nent Forms at the Banks.

The last of the coupons attached to the temporary Third Liberty Loan 4 1/2 per cent Coupon Bonds, maturing 1928, having become payable on March 15, notice has been given that the temporary bonds can now be exchanged for the permanent forms with the full complement of coupons attached.

Holders of bonds can have the exchange made through any bank of the city and without charge for the service. Some banks already have a supply of the permanent bonds on hand and can make immediate exchange. In other cases it will be necessary to wait a few days before receiving the new bonds from Washington.

It is important that bondholders attend to having exchanges made just as promptly as possible. It involves considerable work on part of the banks for which no compensation is received. All are anxious to have the matter disposed of quickly in order to avoid protracted interference with regular bank work.

Mrs. Schoonover's Talk Interesting

Mrs. W. O. Schoonover's talk on "To Cook or Not to Cook" yesterday afternoon to the Housekeepers' club of Pittsburgh was of a very interesting and instructive nature. The subject related not to community kitchens, but to the preparation of foods in the home—whether the raw article is more nutritious than the prepared dish. Mrs. Schoonover favored food in its natural state, whenever it may be eaten that way, cereals for example. She believes a simplified diet is more wholesome than a more elaborate one, and that it is not only more nutritious, but a saver of time and strength—not to mention money. Mrs. C. C. Poling of Pittsburgh, formerly Miss Leslie Hart of the West Side, presided.

LOSS 11.5 PER CENT IN BEEHIVE COKE AS COMPARED WITH 1919

Total in the United States 4,329,000
Tons Against 5,110,000 Tons
to Same Date Last Year.

The report of weekly beehive coke production in the United States, prepared by F. G. Tryon of the United States Geological Survey, shows that rail shipments of beehive coke declined slightly during the week ended March 12. Reports received from 26 carriers originating approximately 97 per cent of the total tonnage shipped by rail indicate a production of 409,000 net tons, a decrease of 3,000 tons, or 0.7 per cent, when compared with the preceding week. The decrease occurred in the Middle and Southern Appalachian regions. The production of Pennsylvania and Ohio, on the contrary, was slightly larger, rising from 315,000 tons during the preceding week, to 315,000 tons; and from the Connellsville region a somewhat greater increase was reported. Production for that region is reported by The Courier at 244,470 tons, an increase of 2.5 per cent over the week of March 6.

An active demand continues for beehive coke, caused to a large extent by scarcity of coal at by-product ovens. Production is restricted by a shortage of coke cars.

The cumulative production since the beginning of the year now amounts to 4,329,000 tons, a decrease when compared with the corresponding period in 1919 amounting to 500,000 tons, or 11.5 per cent.

The production by states, compared with the corresponding week of 1919, was as follows:

	1920	1919
Pennsylvania and Ohio	315,000	308,000
West Virginia	27,000	27,200
Alabama, Tenn. and Ga.	25,000	24,000
Virginia and Ky.	22,000	25,000
Colorado, Oklahoma	7,000	10,000
and New Mexico	6,000	6,000
Washington and Utah	6,000	6,000

AFTER CLOUDS COME SUNSHINE.
AFTER DISORDER COMES JOY.
AFTER SICKNESS COMES HEALTH.
AFTER WEAKNESS COMES STRENGTH.

In the spring when you're "all in"—fagged out—blood thin, if you will turn to Nature's remedy, a tonic made from wild roots and herbs, which has stood fifty years as the best spring tonic you will find strength regained. No need to tell you it's Dr. Pierce's Golden Medical Discovery, put up in tablet or liquid form, and by every druggist in the land. After a hard winter—shut up indoors, your blood needs a temperance tonic, a tissue-builder and blood-maker such as this "Medical Discovery" of Dr. Pierce's.

WOMANHOOD, PA.—"For some years I suffered with chronic bronchitis and would become so run-down that I could scarcely get around to take care of my family. Then I started to take Doctor Pierce's Golden Medical Discovery and also the Favorite Prescription and these medicines rid me of the bronchitis and restored me to normal health and strength. I have also used the Pleasant Pellets in my family for years and consider them ideal as a laxative and liver regulator."

THE SOISSON.
"THE POINTING FINGER"—An interesting drama, starring Mary Mc-Arvey, the beautiful screen star, is today's feature attraction. The picture is in five acts and provides Miss Mc-Arvey with a splendid role. It is supported by a cast of prominent players. A selected comedy is also being shown.

THE PARADISE.
"THE STREET CALLED STRAIGHT"—Basil King's popular novel, with Naomi Childers, Milton Sills, Charles Clary and other well-known screen stars appearing in splendid roles is being presented today. The story differs from that of the average film production in that its theme involves mental rather than physical complications. "The Street Called Straight" has a deep thought underlying it, and appeals to the intelligence of the spectator as well as to his emotions. The clearness with which the points of the theme are hammered home, and the subtle convincing manner in which the significance of the situations is brought out, are due to Wallace Worsley who directed the production. Technically, the picture is as close to perfection as modern motion picture art can make it. The sets represent perfectly the high station in life occupied by the characters, and the interior art decorations suggest the culture and refinement to be found in many old American families. Beautiful photography reveals many unique lighting effects. The various characters are interpreted by an all-star cast including Milton Sills, Naomi Childers, Charles Clary, Alice Blanton, Irene Rich, Lawson Butt, Lydia Yamans Pitts, and Jane Sterling.

THE SOISSON.
The comedy by Howard Stickney Searles and the songs and music by Casper Nathan and Isidor Jones is managed by Norton Dannel and Klum. The author of the play has been enthusiastically successful in writing a delightful story that keeps constantly in touch with the high lights of farcical comedy, and has filled the humor players are equally able and effective in their special roles. WOMEN SHRINK FROM MODESTY

Bear Grievous Pain Rather Than
Make Grievous Condition
Known.

The subject of the complaint peculiar to women is a delicate one, yet it is a duty to all that is pure and noble to let them know that most of their derangements are due primarily to nervous debility.

"Many suffering women, ignorant by shrinking modesty, have borne this grievous condition rather than make a personal appeal," said the Tanika Men. When they say, "I am all run-down," nervous and debilitated, that means that they are victims of this modern malady. Such women are they are innumerable in all localities, suffer from headaches, loss of appetite, sleeplessness and depression of spirits, and Tanika, a tonic, appetizer and invigorant is just what they need.

Tanika, which builds up the system, creates a healthy appetite, promotes digestion and assimilation of food, vitalizes the blood, brings back color to the cheeks and the sparkle of health to the eyes, in now and then by Beighley's Pharmacy, Conneltsville Drug Store, Fred H. How Scotch Folks Prevent Influenza

Germ Killing Vapors

A Scotch prescription now being sold extensively in America by leading druggists is so simple that it appeals to all intelligent people.

It is a liquid called Haesanol, that surely does kill germs in throat and nose. Pour a few drops into a bowl of water and breathe the antiseptic vapor that arises upon your handkerchief and breathe it through the day or put some on your pillow at night and breathe a purified air that kills the germs while you peacefully sleep.

Use Haesanol to prevent influenza. Kill the germs before they kill you—or even before they start to do any harm. Conneltsville Drug Co. advises Haesanol.—Adv.

Catarrh Will Go

If after breathing Hyonol, the wonder-worker, you are not rid of vile catarrh you can have your money back. No stomach dosages—just take the little box of Hyonol, packed in airtight tins with each puff, and pour it in a few drops of Hyonol. Breathe it according to directions. DAUGHTER WAS IN POOR HEALTH FOR MANY LONG YEARS

Was Always Catching Cold—Sleep
Poor, Appetite
Gone.

TELLS HOW THEY
BUILT HER UP.

"My daughter several years ago was stricken by a congestion of the lungs and although her health up to that time was fine she has never been well since. Since then she would catch cold almost daily and had in a constant dread of sickness. I sometimes wondered now in the world she existed on the little food she would eat or the little sleep that she got. She was very weak indeed. She complained a lot of heartburn and pains in her stomach and always seemed to feel terribly tired all over. I guess she would be that way today if friends from Youngstown hadn't told us of this wonderful new tonic called Earle's Hypo-Cod. They said everybody around Youngstown was praising it so we got a bottle and thank goodness all her troubles are over now."

BUILT HER UP QUICK.
In a short time she had so much more life and energy we were amazed. She began sleeping fine and would eat big hearty meals again. She doesn't complain like she did and in fact it made a different child out of her. It surely proved very clearly what it would do in her case, declared Mrs. G. Helms, 2 Cross street, Fair Oaks Pa. (Pittsburg).

Weak, puny, thin and pale children are soon made rosy robust and strong through the use of Earle's Hypo-Cod according to thousands of parents and users. It is so much more powerful—so much more effective and at the same time is so nice to take children love it.

Read what others say appearing almost daily in this paper. "Tren drop in A. your druggist and procure a bottle of the genuine Earle's Hypo-Cod. You'll be delighted."

Earle's Hypo-Cod is sold here by Briel & Company and the leading druggists in all nearby towns. Price \$1.25 plus 5c war tax.—Adv.

MOUNT PLEASANT, March 25.—The affirmative team of the Mount Pleasant borough high school won in the inter-school debate at the Reformed church auditorium last evening over the Mount Pleasant township high school. Much enthusiasm was shown by the people who packed the church auditorium. Music was furnished by the high school orchestra and was greatly enjoyed. Parents are beginning to realize the value back of these literary contests and are showing a great deal of interest in them. The local high school was represented by Charles DePriest and Donald Stoner and township high by Mr. Scott and Mr. Haberlin. The judges were Prof. J. N. Waugaman of Scottsdale, Miss Eva Rittenhouse of East Huntingdon township high and Miss Lydia Clark of Greensburg high. On account of the illness of Miss Gladys Christner, Miss Gertrude Gibbon and Lawrence Fox made up the negative team which went to the township high school.

Telephone Board Burned Out.
The telephone wires of the Tri-State line crossed with the West Penn wires and set fire to the board in the local office. As a result a large number of the telephones in town are out of commission.

Miss Anna Kimmel left today for Detroit to visit friends.
Mrs. Catharine B. Powers of Fayette City was the guest of her sister, Mrs. Frank Hurst, yesterday.

GRAY HAIR BECOMES DARK AND BEAUTIFUL

Try Grandmother's Old Favorite
Recipe of Sage Tea and Sulphur.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays we simply ask at any drug store for "Wynth's Sage and Sulphur Compound." You will get a large bottle of this old-time recipe improved by the addition of other ingredients, at very little cost. Everybody uses this preparation now, because no one can possibly tell that you have darkened your hair as it does so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy—and you look years younger.—Adv.

Keep The System Clean And You'll Be Healthy

Elimination helps to avoid colds, headaches and epidemics

ANYONE who has watched himself knows there is nothing so important to health and comfort as regular daily elimination. Half of the minor illnesses of life are due to neglect of this. The five million men who were in our army know the importance of the doctor attached to this function.

By all means try to regulate yourself by intelligent diet and exercise, but when these fail you will need a laxative, one as near to nature in its action as skill can make it. In the opinion of many thousands of good Americans such a one is Dr. Caldwell's Syrup Pepsin, which is a combination of simple laxative herbs with pepsin. It acts promptly, gently and without griping and will with certainty regulate any tendency to constipation that you may have.

Take it when you feel drowsy, dizzy or bilious, when you feel a cold or a fever coming on, when there is an epidemic, when you have eaten anything about which you are in doubt. It is at such times that you need to be free of poisons and of fermenting foods. You can buy Dr. Caldwell's Syrup Pepsin at any drug store. Thousands of families have it constantly in the house against emergencies.

In spite of the fact that Dr. Caldwell's Syrup Pepsin is the largest selling liquid laxative in the world, there being over 5 million bottles sold each year, many who need its benefits have not used it. If you have not, send your name and address for a free trial bottle to Dr. W. B. Caldwell, 511 Washington St., Monticello, Illinois.

Now is the time to rid yourself of freckles; for if not removed now they may stay all summer, and spoil an otherwise beautiful complexion. Your money back if Othine fails.—Adv.

Why Measles May Be Dangerous

This is No. 3 of a series of advertisements, prepared by a competent physician, explaining how certain diseases which attack the air passages—such as Pneumonia, Influenza, Whooping Cough, Measles or even a long continued Cold—often leave these organs in an inflamed, congested state, thus affording a favorable foothold for invading germs. And how Vick's VapoRub may be of value in this condition.

Few of us escape measles—it is one of the commonest of childhood diseases. Every mother knows the symptoms, but the mistake that most mothers make is in failing to realize that the child is not fully recovered after the eruption and fever disappear. The air passages are still inflamed and if this inflammation is not cleared up, the air passages may be weakened, thus paving the way for pneumonia or serious disease of the lungs.

Nightly applications of Vick's VapoRub will aid nature in relieving this inflammation. Because Vicks acts locally by stimulating the skin to draw out the inflammation, attract the blood away from the congested spots and relieve the cough. In addition, the medicinal ingredients of Vicks are vaporized by the body heat. These vapors are breathed in all night long, bringing the medication to bear directly upon the inflamed areas.

Children's digestions are delicate—easily disturbed by too much "dosing"—Vicks, therefore, is particularly recommended since it is externally applied and so can be used often and freely without the slightest harmful effects.

Vicks should be rubbed in over the throat and chest until the skin is red—then spread on thickly and covered with hot flannel cloths. Leave the clothing loose around the neck and the bed clothes arranged in the form of a funnel so the vapors arising may be freely inhaled. If the cough is annoying, swallow a small bit of Vicks the size of a pea.

Samples to new users will be sent free on request to the Vick Chemical Company, 233 Broad Street, Greensboro, N. C.

TRY MAGNESIA FOR STOMACH TROUBLE

It Neutralizes Stomach Acidity, Prevents Food Fermentation, Sour, Gassy Stomach and Acid Fermentation.

Doubtless if you are a sufferer from indigestion, you have already tried pepsin, bismuth, soda, charcoal, drugs and various digestive aids and you know these things will not cure your trouble—in some cases do not even give relief.

But before giving up hope and deciding you are a chronic dyspeptic just the effect of a little powdered magnesia—not the ordinary commercial carbonate, citrate, oxide or milk, but the pure bismuthated magnesia which you can obtain from practically any drug store in either powdered or tablet form.

Take a teaspoonful of the powder or two compressed tablets with a little water after your next meal, and see what a difference this makes. It will instantly neutralize the dangerous, harmful acid in the stomach which now causes your food to ferment and sour, making gas, wind, flatulence, heartburn and the bloated or heavy lump feeling that seems to follow most everything you eat.

You will find that provided you take a little bismuthated magnesia immediately after a meal, you can eat almost anything and enjoy it, without any danger of pain or discomfort to follow and moreover, the continued use of the bismuthated magnesia cannot injure the stomach in any way so long as there are any symptoms of acid indigestion.—Adv.

The House of Whispers

By WILLIAM JOHNSTON

I hesitated. It was hard to explain my actions without telling her the whole miserable story, without admitting to this girl on whom I was most eager to make the best of impressions that I was a young man out of a position, discharged in disgrace. Yet she had given me her confidence. It was only fair to her and to myself that there should be no secrets between us. I began at the beginning. I told her of my coming to New York and how I had seen my great-uncle Rufus only once or twice. I related the departure of Roller and Birge for the war front and told her how eager I had been to go with them. I even went into detail as to the reason I had not gone with them, my debt to the mother.

She did not seem greatly interested in the first part of my narrative but when I began telling of the proposition the Gastons had made to me and of the mysterious warnings each of them had separately given me, I could see her interest kindling.

"There is something wrong in that apartment house," she explained. "We have had nothing but trouble ever since we lived there. I wonder if there is anything in the theory that evil deeds make bad karma, which spreads its effects all about. I know I feel there is a sinister atmosphere about the whole place."

"I'm beginning to feel it, too," I said bitterly. "I told her then of my unexpected and unwarranted discharge without explanation the day before. 'How do you account for it?' she asked perplexedly.

"You must have some enemy, some malicious person who has spread some terrible tale about you."

"I haven't any enemy in the world," I replied, yet even as I spoke there flashed across my mind the malevolent glance the scar-faced man had given me in the restaurant a few evenings before.

"I wonder," said Miss Bradford thoughtfully, "if the same people who are trying to blackmail us are not trying to involve you with us in some way?"

"They may have been watching and have seen you enter the house with me twice. They may think that you and I are friends and that you were there in the park purposely that first time."

"Even so," I replied, "that doesn't explain this."

"I pulled from my pocket the note I had found on the floor of my bedroom and showed it to her."

"Where did you get that?" she gasped in astonishment.

"Last night I heard footsteps and whispers. I thought at this time I was dreaming. This morning I found this note on the floor."

"You heard whispers," she cried excitedly. "Whispers that seemed to come from up near the ceiling?"

"I thought I heard them. I wasn't sure."

"I know," she said, shuddering. "I've heard them—twice."

"We looked at each other despairingly."

ly. We both of us realized that we must be surrounded with some potent evil forces working to accomplish our ruin. The motive in the anonymous letters that Miss Bradford had been receiving had plainly been blackmail. But what was the motive in my own case? Why had someone stolen the Gaston pearls and then in an anonymous letter to me spoken of the theft? I wondered, too, if the successful attempt to discredit me at my place of business had not originated from the same mysterious source.

Their First Communion

means so much to the boys that it is but right they should be well dressed and each will find here exactly the suit he wants for that solemn sacrament.

Cortely clothes are, as their name implies, well adapted to setting off the boy's quieter moods, but despite their elegant appearance, they will wear extremely well for ordinary existence.

As for Dubbelbilt, everyone knows they look fine and wear like iron, which is, after all, a great comfort not only to the boy, but to his mother, also.

Handsome Suits in Navy. Blue \$10 to \$20.

Fancier Suits are from \$6.50 to \$26.75.

We are showing also a fine line of Tom Sawyer suits, coats and hats for the little fellows.

PRODUCTION OF IRON AND STEEL WILL NOW BECOME INCREASED

Removal of Coal Price Limits Providing an Opportunity to Bid for Larger Supplies of Fuel.

Special to The Weekly Courier.

NEW YORK, March 24.—The American Metal Market and Daily Iron & Steel Report will review the steel and iron trade tomorrow as follows:

The removal of price restrictions on coal and coke, which become effective April 1, will enable the iron and steel industry to secure a better rate of production as it will be enabled to bid

prices in the open market that will command coal, for steel mill use and for making coke in by-product ovens. The cost of production of steel might not be increased, as the intermittent operation of mills has increased cost per ton and full production would tend to bring costs down. The opinion is of the opinion that high prices will rule for prompt deliveries of coal and coke in the early stages of the open market, prices perhaps one half greater than the government prices that come to an end March 31. Some producers are of the opinion that prices above the government level will prevail for many months—six month or annual contracts being also above the government level.

While mill and furnace operations

have continued to suffer restriction from fuel and car shortage, the average rate of operation increases slightly from week to week and is much higher than was predicted last December would prevail at this time. Production of both pig iron and steel ingots is up so high a percentage of capacity as recently estimated that there is a disposition to increase the estimates of capacity, beyond, say, 50,000,000 tons a year for ingots and 44,000,000 tons for pig iron.

The market in steel products is relatively quiet. The United States Steel Corporation continues to adhere to the Industrial Board prices, but there is no barrier as customers simply accept willingly the tonnage allotted. Large independents have not yet named

prices for third quarter, but intimate that they have no expectation of advancing above their present quotations. The market for prompt deliveries is sagging at a very gentle rate, and the whole market, months hence, may find itself on a single basis, without the shock or disorganization that is expected in some quarters.
